How we teach

Kindergarden

Polyglot tots

Students are exposed to learning in a positive fun environment by utilizing singing, dancing, movement, workbooks, videos and tablets.

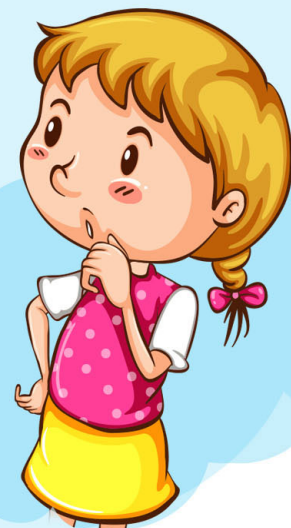

YOU

ÉI

We start their Second Language acquisition in English or Spanish.

We introduce Critical Thinking skills by presenting choices and teaching them to evaluate and select an approach.

How we teach

Elementary School

Tri-lingual exposure

Students continue their S.T.E.A.M. education while rotating through their “Language Wheel” on their road to becoming Polyglots

We offer Spanish, English, French, Italian, Portuguese, and Mandarin Chinese.

Hello!

你好!

Hola!

We introduce Critical Thinking Skills in all subject areas and provide Computer Science Coding

How we teach

Middle School

Critical Thinking Skills

Students will focus on core subjects (S.T.E.A.M.) utilizing Technology, Educational and Computer Applications.

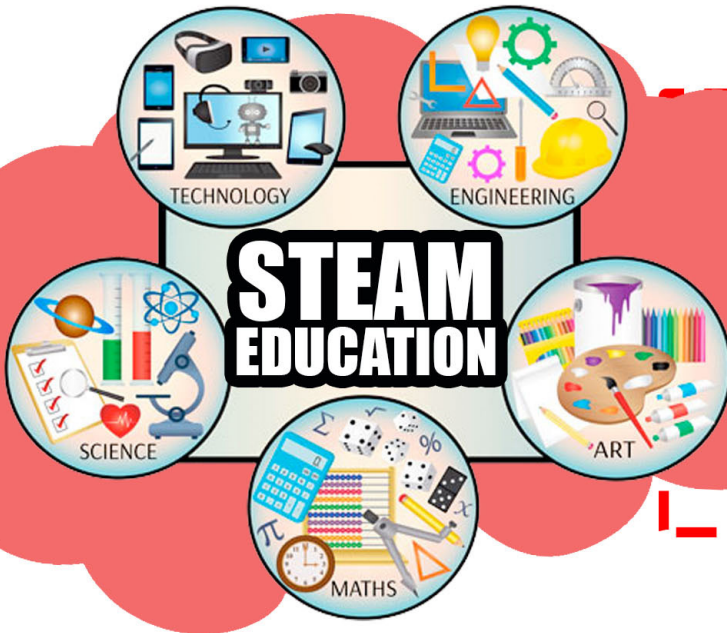

Students will select their third language in addition to continuing their second language.

Students will hone in on their Critical Thinking and, Computer Science They will be learning to code in HTML, Javascript, and Python.

Finesse Critical Thinking Skills

Students will delve more deeply into their STEAM education. Utilizing Critical Thinking skills they will develop approaches to solving Global issues

Students will be involved in Community issues utilizing a Hands-on Approach, such as Green Technology, Eco Dome Homes, and Botany.

How we teach

Language School

Global school

Students can study from two weeks to years and stay on site in the dorms. Total Immersion is the best tactic for learning.

Adiós

Hola

Our teaching tactics will have you speaking Spanish the first day of class, translating and writing in Spanish. We also offer English, French, Mandarin Chinese and Portuguese.
